

Anser Advisory

HEALTHCARE

Every healthcare facility is different. By recognizing the unique challenges and needs that accompany each system or organization, we at Anser apply the right experience and expertise to meet your master planning, programming, procurement and construction/project management needs.

By incorporating the needs of the diverse stakeholders that make up healthcare facilities, we have been successful in delivering superior quality healthcare upgrades, renovations and new construction projects to clients nationwide. We use advanced technology during all phases of our projects, including during master planning and programming. Based on our experience, we are able to manage construction activities on fully functioning facilities with minimal disruption to operations.

Our team of professionals possesses the necessary institutional knowledge and expertise, having worked as owners at various healthcare facilities. We understand the challenges faced by the owner and bring real time practical solutions to address every concern or requirement. Our expertise can be applied to the following types of healthcare facilities:

- Acute-Care Hospitals
- Academic Medical Centers
- Outpatient Facilities
- Medical Office Buildings
- Medical Research Facilities
- Specialty Hospitals
- Cancer Centers
- Heart Centers
- Women's and Children's Centers
- Ambulatory Surgery
- Assisted Living and Senior Housing
- Imaging and Radiology
- Data Centers

HEALTHCARE SOLUTIONS

Anser is qualified to provide a wide range of management consulting services that address every phase of the healthcare development process, including financing, programming, project and construction management. Whether it is securing financing, managing design and construction, or developing and integrating information systems, we have the right solution to meet your needs.

We have the technical expertise and execution capabilities to provide tailored solutions and staff augmentation capabilities to support our clients changing needs. **We pride ourselves on providing the right people at the right time.**
